Section 1
Exploring Professional Nursing 1

Chapter 1 The Professional Nurse 3

Characteristics of Professional Nursing Practice: The Hood Professional Nurse

   Contributions Model 4

   Core Competencies for Professional Nurses 6

   The Multiple Roles of the Professional Nurse 8

   Challenges of the Professional Nursing Student 8

   Skills for Educational Success 9

   Image and Physical Appearance 12

   Socialization and Resocialization Into the Nursing Profession 12

   Developing a Professional Self-Concept 15

   Characteristics of a Profession 17

Chapter 2 The History Behind the Development of Professional Nursing 36

Nursing in Ancient Civilizations (Before 1 CE) 37

Nursing in the Early Christian Era (1–500 CE) 39

Nursing in the Middle Ages (500–1500) 40

The Establishment of Nursing in Europe, England, and the New World (1500–1819) 40

The Movement of Nursing to a Respectable Profession (1820–1917) 42

The Birth of Formal Nursing Education 44

The American Public Health Movement 47

Nursing During the Early 20th Century, the World Wars, and the Post–World War II Era (1890–1960) 48

Nursing in the Modern Era (1960–1999) 50

Media Portrayals of Professional Nurses 55

Nursing in the Second Decade of the Postmodern Era and Beyond (2010–20 ...) 57

Chapter 3 Contextual, Philosophical, and Ethical Elements of Professional Nursing 62

Contextual Basis of Nursing Practice 63

Nursing Philosophy 68

Morality and Ethics in Nursing Practice 71

Ethical Decision Making 74

Major Contextual Elements Affecting Nursing Practice 78
Chapter 4  Establishing Helping and Healing Relationships  86
Communication as Interaction  87
Helping Relationships: The Nurse as Helper  95
Healing Relationships: The Nurse’s Role in Healing  105
Helping and Healing Relationships With Colleagues and Other Health Care Team Members  107

Chapter 5  Patterns of Knowing and Nursing Science  115
The Evolution of Scientific Thought  116
Philosophy of Knowledge  119
Patterns of Nursing Knowledge  121
The Development of Nursing Science  127

Chapter 6  Nursing Models and Theories  132
Nursing Models  133
The Stability Model of Change  136
The Growth Model of Change  144
Complexity Theory as a Framework  148
Nursing Models in Research and Practice  156

Chapter 7  Professional Nursing Processes  162
Critical Thinking  163
Cognitive Nursing Processes  164
Interpersonal Processes  179
Psychomotor Processes  181
Patterning Nursing Processes  181

Chapter 8  The Health Process and Self-Care of the Nurse  186
Worldviews of Health  187
Health Protection and Promotion  189
Health Patterning  196
Implications of the Nurse’s View of Health for Role Performance  201
Self-Care of the Nurse  201

Section 2
The Changing Health Care Context  213

Chapter 9  Health Care Delivery Systems  215
Challenges of Health Care Delivery in the 21st Century  216
Selected Current Health Care Delivery Systems  218
Health Care Delivery Settings  231
The Interdisciplinary/Interprofessional Health Care Team  234
Nursing Care Delivery Models  236
Nursing Challenges Related to Health Care Delivery Systems  239
Chapter 10 Developing and Using Nursing Knowledge Through Research 247
The Research Process in Nursing 249
Nursing Research Utilization and Evidence-Based Practice 256
Creating a Public Image of the Nurse as Scholar 270

Chapter 11 Multicultural Issues in Professional Practice 274
Diversity and Assimilation in a Shrinking World 275
Establishing Cultural Competence 280
Strategies and Challenges for Multicultural Nursing Practice 289
Creating a Multicultural Nursing Profession 295

Chapter 12 Professional Nurse Accountability 300
Definition of Accountability and Related Concepts 301
Professional Accountability 306
The Groundwork for Accountability 318
Accountability in an Era of Cost Containment 319
Accountability in the Future 320
Checklist for Accountability 320

Chapter 13 Environmental and Global Health 325
The Global Environment 326
The Community Environment 335
The Work Environment 337
The Home Environment 343
Comprehensive Environmental Health Assessment 345
The Nurse's Role in Disaster Planning, Mitigation and Recovery 345

Chapter 14 Informatics and Technology in Nursing Practice 354
Informatics and Health Care 355
The Informatics Nurse Specialist 360
Consumer Health Informatics in Practice 365
Educational Informatics 367
Technology in the Acute Care Clinical Setting 369
Technologic Changes Affecting Nursing Practice and Health Care 371
Challenges in Managing Health-Related Informatics and Technology 373

Section 3 Professional Nursing Roles 381

Chapter 15 Nursing Approaches to Client Systems 383
The Individual as Client 386
The Family as Client 386
The Community as Client 388
Chapter 16 The Professional Nurse's Role in Teaching and Learning 421
Health Literacy 422
Philosophical Assumptions About Teaching and Learning 423
Teaching-Learning Process Approaches 427
Teaching-Learning as a Responsibility of the Advocate 428
Learning Theories 430
Implications of Change Theory on Teaching-Learning 432
Strategies for Effective Teaching and Learning 435
Specific Client Education Activities 437
Client Education as an Interdisciplinary Process 440

Chapter 17 Leadership and Management in Professional Nursing 443
Conceptual and Theoretical Approaches to Nursing Leadership and Management 444
Leadership Development 448
Key Leadership and Management Skills for Nurses 451
Leadership Effectiveness 467
Evaluating Leadership Effectiveness 470

Chapter 18 Quality Improvement: Enhancing Patient Safety and Health Care Quality 474
History of Quality Improvement in Health Care 475
The Need for Improved Patient Safety and Care Quality 479
Quality Improvement Approaches 483
Implementing Continuous Quality Improvement and Total Quality Management 489
Efforts to Improve the Quality of Health Care 492
Professional Nursing Roles in Quality Improvement 494
An Integrated Approach to Quality Improvement and Safety in Health Care 499

Chapter 19 The Professional Nurse's Role in Public Policy 505
The Kingdom Model for Political Processes 506
The Nurse's Role in Influencing Public Policy 507
Current Political and Legislative Issues Affecting Professional Nursing Practice and Health Care 519
Examples of Nurses Influencing Public Policy 521
Opportunities to Learn the Art of Influencing Public Policy 523
Enhance your career with this comprehensive overview of the nursing profession.

The 9th edition guides students through the complex issues vital to their career success. Informed by the latest developments in the profession, Dr. Hood addresses the philosophical, developmental, sociocultural, environmental, and political dimensions of nursing. By exploring the scope and possibilities of a nursing career, students will learn strategies for leadership and management, dealing with personal and ethical challenges, incorporating evidence-based practice, and influencing public policy towards the improvement of delivery of care. At the end of each chapter, content is linked to both clinical practice and to a conceptual model (Hood's Professional Nurse Contributions Model) that visually depicts professional nursing.

**Key Features:**

- **NEW! Nurse as Author** writing assignments strengthen critical thinking and writing skills.
- **Professional Building Blocks** highlight clinical and professional implications.
- **Learning, Knowing, and Growing** boxes help students develop both personally and professionally.
- **Professional Prototypes** provide examples of documents, concepts, philosophies, and more, along with suggestions for personal and professional growth.
- **Real-Life Reflection** case studies show how content is applied to nursing practice.
- **Focus on Research** boxes synopsize current journal articles to help students understand the link between research and practice.
- **Concepts in Practice** boxes use hypothetical clinical situations to demonstrate how important concepts are used in real-life practice.
- **Questions for Reflection** help students think about their life experiences in the context of their learning.
- **From Theory to Practice** questions ask students to think about each chapter’s content in the context of their own lives.
- **Compelling Videos and Interactive Resources** bring concepts to life in a memorable way.
